PHYSICIAN LICENSING COMMITTEE

Dr. Cheeks presented the report of the Physician Licensing Committee that met on Thursday, August 5, 2004. Mrs. Kunes moved to approve the committee's recommendations, Dr. Davis seconded, and it carried unanimously. The recommendations were as follows:

1. Request for variance of Rule 360-2-.01(5) & (6) submitted by Dominic Nkwocha: The Committee recommends granting the request as the petitioner's alleged specific facts of substantial hardship do justify waiver or variance because said facts established significant, unique and demonstrable economic hardship.
2. Request for new procedure regarding review of malpractice cases by the Assistant Medical Director: The Committee recommends that this request be denied as it is the function of the Licensing Committee to review problem applications and submit recommendations to the Board, and the Chairman will sign-off on the administrative approval of applications.
3. LaSharn Hughes, Executive Director, presented the following to the Committee:
 - a. Letter from reinstatement applicant CBF regarding the Board's request for him to take PLAS. The Committee recommends sending a letter to CBF that the Board's decision stands.
 - b. Information regarding international medical school graduates who attend medical school in one school, which is not in the WHO Directory, and transfer to another medical school, which is in the WHO Directory. The Committee recommends to the staff a medical degree has been issued from a school, which is listed in the WHO directory, it will be accepted.
4. Review and approval of submitted revised Initial Application for Physician Licensure: The Committee recommended to table until September 2004 for review and to make some revisions.
 - a. To remove request to have applicants include hospital affiliations on the CV because this is not a common practice.
 - b. To add COMLEX to the list of examinations.
 - c. To utilize the language in the Physician Profile regarding the question about Board Certification (#9).
 - d. To include language on the question page that any fraudulent answers may could be grounds for denial and reported to the National Practitioner Data Bank.
5. Request for policies/rules on various documentation currently requested by the Board: The Committee recommends that a list be made to review and decide if the items need to be referred to the Rules Committee or if items need to be presented to the full Board.

6. Requests from staff for 2-month temporary license to be issued to applicant Khalid Kamal. This applicant will complete residency training on 8/25/04 and receive the certificate of completion 9/30/04. Application is complete except for Certification of Postgraduate Training form required by the Board. A letter of good standing has been received from the program director. The Committee recommends issuing him a temporary license for one month in compliance with the rule, and if necessary, he can apply for another temporary license.
7. Physician Requests for Board approval of lapsed licenses, each expiring 12/31/2003 and revoked for non-renewal by law on July 1, 2004. The Committee recommends denying both requests based on the rules governing renewal and inform them to apply for reinstatement.
 - a. Joseph Hegleh #050716
 - b. Vinson M. Disanto #51926 (Incomplete Physician Profile)
8. Request from Dr. Paul G Sutej for copies of his personal records to be sent to him and copies of his Fellowship Training Program at Chapel Hill be sent to St Joseph's Hospital and Northside Hospital. Staff would like to know if patients are allowed a copy of their medical records by completing a formal request from the agency holding the records, why can't applicants be allowed the same privilege – without going through the Committee and the Board for approval – by completing a form created and approved by the Committee and the Board. The Committee recommends approval of Dr. Sutej's request for copies of the application file per Board policy and then he can disseminate his information, as he wants. Regarding the staff's request for a request form, the Committee recommends to determine each request on a case by case.
9. Information from FSMB re: ECFMG's Clinical Skills Assessment. The Committee accepted this as information. Staff questioned if this might need to be a part of the application process for the applicant to request this information. The Committee recommends including this as part of the application process.
10. Interviews: The Committee conducted (3) three interviews and recommendations were to:
 - a. License without restriction:

Azita Djalivand Rudolphus Holton
 - b. Case #20041037 - License with Public Consent Order to include terms and conditions. Also, request documentation of compliance/completion with CME in Ethics from Alabama Board.
11. Applications: The Committee conducted a special review of 26 for licensure by endorsement and three (3) applications for reinstatement of Georgia license. The Committee recommended:
